

Prof. Dr. Agr. Sc. Hagus Tarno, SP., MP.

**Position:**

Professor of Agricultural and Environmental Entomology & Nematology, and Head of Double Degree Program and Foreign Student Services, Universitas Brawijaya from 2023 to now.

***Academic background:***

I got my Bachelor's and Master's diplomas from Universitas Brawijaya, Indonesia, and got my doctoral degree in Environmental Science and Technology at the Graduate School of Agriculture, Kyoto University, in 2011.

***Working experiences:***

In 2002, I was selected as a Junior Lecturer in the Faculty of Agriculture, Universitas Brawijaya, Indonesia, and working till now on. In 2023, I was promoted to Professor at Universitas Brawijaya. From June 2019 to June 2023, I was Vice Dean for Student Affairs, at the Faculty of Agriculture, Universitas Brawijaya.

***Research and publication experiences:***

My research focuses on Agricultural and Environmental Entomology and Nematology. Mostly, I'm working on the ambrosia beetles based on an ecological viewpoint. Of 44 international papers, there are more than half of them focused on the biodiversity of ambrosia beetles and other arthropods.

***Professional experiences:***

In December 2023, I was elected to be Vice President of the Indonesian Entomological Society for four years.
